

# EXPERIMENTED ON WITHOUT INFORMED CONSENT (EOWIC FORM)

This is to report that I, (name) \_\_\_\_\_

Address \_\_\_\_\_ Phone No. \_\_\_\_\_

was injected with 1 , 2 , 3 , 4 (circle number) doses of **experimental** COVID-19 pharmaceutical drug products at \_\_\_\_\_ (place of vaccination) on

date(s) \_\_\_\_\_ **WITHOUT BEING INFORMED BY NHS**

**SCOTLAND I WOULD BE PARTICIPATING IN PHASE 3 CLINICAL DRUG TRIALS.** Had I been given the correct factual information that was required and not fulfilled by NHS Scotland under The Patient Rights (Scotland) Act 2011, I would NOT have consented to being injected with any of the COVID-19 drug products. Since being injected I have also discovered there are undisclosed ingredients within these COVID-19 drugs (with the excuse of “trade secrets”).

## Additional Information:

Evidence that all emergency-use COVID-19 drugs are in Phase 3 clinical trials, and, as such, are categorised as “experimental” can be found (in **Exhibit.pdf**) on the Police (Scotland) Angels Blog, under the heading ‘*Project – Consent Not Informed*’: <https://policescotlandangels.org/?p=2300>.

Please attach this completed form to evidence already submitted in regard to **Incident No. 20220120-1333**. Police Scotland has already been alerted to the death of 20-year-old Luke Garrett from Ayrshire who died on 9 February 2021 within 12 hours of receiving one dose of the Pfizer-BioNTech COVID-19 drug. <https://www.dailymail.co.uk/news/article-9469529/Mother-demands-answers-son-20-died-12-hours-receiving-Pfizer-jab.html> In the Daily Mail article Luke Garrett’s mother revealed, “**He was on heart drugs that were just as a preventative measure.**”

Note: On page 9 of **Exhibit.pdf** that **Phase 1 and 2 Clinical Trials do NOT test using a drug in combination with other drugs.**

**THIS IS A CRIME OF THE GRAVEST MAGNITUDE.** The mass injecting of innocent men, women, children and pregnant women with experimental pharmaceutical drug products **MUST STOP NOW** and the perpetrators brought to justice.
